Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Explain how SEO and generative AI work together, set safe working boundaries and use a structured prompt-and-review method.
- LO2: Build an evidence-led keyword universe, topic clusters and a search-intent content plan with AI assistance.
- LO3: Create an SEO content brief, outline, title, meta description and on-page draft that remain grounded in approved sources.
- LO4: Audit and improve an existing page for content, on-page and technical SEO, then verify quality against Google guidance.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.
